

Introduction**Hassan**

- Project background
- Objectives
- Scope
- Intended audience

General description**Hassan**

- Features
- Functions
- Performance requirements
- constraints
- dependencies

Specific requirements**Jawad**

- User
- Functional
- Non-functional

Design**Jawad**

- Context Diagram
- Swim lane Diagram
- Activity Diagram
- Architecture Diagram

**User interface requirements
(GUI)****Jawad****System features****Hassan**

- functions
- inputs
- outputs
- performance requirements
- System interfaces
- Communication protocols
- data formats

External interfaces**Hassan**

- software system
- hardware
- software
- network interfaces

Requirement Traceability Matrix (Jawad & Hassan)

Performance requirements: This section should describe the performance requirements of the software system, including any response time, throughput, or capacity requirements. Jawad

Constraints and assumptions: This section should describe any constraints and assumptions that may affect the design or implementation of the software system. Jawad

Appendices (Jawad & Hassan)

- glossaries
- diagrams
- tables
- reference material
